Stoneleigh Reserve Park construction under way

Residents at Stoneleigh Reserve have been craving new park features to complement the existing play equipment in the Stoneleigh Reserve Park.

This was one of the biggest issues raised when Councillor Heremaia came to Stoneleigh Reserve to discuss local matters.

With the support of the community and some great feedback, Councillor Heremaia has been able to work with

Council to see these much-needed upgrades become a reality for residents.

Stoneleigh Reserve residents have a lot to look forward to, including a 2-storey playground, water troughs and swings.

Families can also look forward to a new shelter, seating and more trees to provide enough shade for the whole family.

These new park features will be a great addition for local families.

Help for community members in need

Residents come together regularly to help community members in need at the Park Ridge Baptist Church Community Service Days.

The community service days are held at the Park Ridge Baptist Church at 3922 Mt Lindesay Hwy, Park Ridge.

Please contact the Park Ridge Baptist Church for the next date and time.

Heritage Park mural is greeting residents once again

The beloved Heritage Park koala mural is back!

It was badly damaged in a serious car accident last year. The mural had been greeting residents entering Heritage Park since its creation in the late 1980s.

Both Councillor Heremaia and the residents of Heritage Park were sad to see their old friend go.

However, Councillor Heremaia and the community worked together to make sure the local icon was restored to its former glory.

The repairs are now complete and greeting residents of Heritage Park on Bayliss Road.

The work was repainted by Council's own mural artist.

Mayor's message

The City of Logan's growth story is well known, but with this comes the delicate act of ensuring we maintain and improve our reputation as a green and sustainable city.

Becoming carbon neutral by the end of this year is a commitment Council has made to ensure we safeguard the city's future and

protect it for generations to come.

To achieve carbon neutrality, innovation is needed, and last month we made a significant inroad with the official opening of our biosolids gasification facility at the Loganholme Wastewater Treatment Plant.

Logan City Council has pioneered an Australian first – a facility that transforms human waste into renewable energy and an environmentally friendly, marketable product called biochar.

Loganholme Wastewater Treatment Plant provides services to 300,000 people across the city each year. The gasifier will reduce Council's annual carbon emissions by about 6000 tonnes and save ratepayers almost \$1 million a year through cost savings and carbon credits.

Logan Water is leading the way for Australia to take a more sustainable approach to managing the 2.3 million tonnes of dewatered biosolids produced each year and already we have been approached by other utility providers looking to leverage our experience.

I truly believe our Logan Water team will be pioneers in helping the world overcome one of its biggest pollution issues.

Mayor Darren Power
City of Logan

Have your say at community meetings

Community meetings hosted by Councillor Heremaia have always been a great place for the community to come together and provide their feedback and vision for Division 8.

Critical issues have been discussed at past meetings, leading to better local outcomes.

Each of these meetings is free to attend, with food and drinks provided for all attendees.

They are a great opportunity to have your say on the future of Division 8 and hear from government representatives.

Please contact division8@logan.qld.gov.au or Councillor Jacob Heremaia on Facebook for information on future meetings.

Helping families in Division 8

Division 8 is full of exciting and passionate people. One such person is Caleb Timu.

Councillor Heremaia recently sat down and spoke with the Regents Park resident and ex-Wallaby star about their shared community.

Caleb is a loving father and husband and has dedicated his life to serving his community and his church.

Councillor Heremaia and Caleb had some great chats about their community and about helping people cope with serious issues such as anger and depression.

As a young father, Caleb has dealt with anger, addiction, and anxiety. He has worked hard over the past few years to help men of all ages cope with and better control anger, depression, and addiction through his self-help programs.

These programs aim to help members with personal development and to become financially self-reliant.

Ultimately, they help individuals gain a sense of purpose and to work hard to improve their lives and the lives of their families and their communities.
