## Intersection upgraded on Park Ridge Road

The upgrade of the busy intersection of Park Ridge Road, Clarke Road and Lindenthal Road is now complete.

The population of our area is continuing to grow which has created an increased strain on our local roads.

Thousands of vehicles use Park Ridge Road daily and Division 8 residents have been calling for this upgrade for a long time.

The intersection upgrade included traffic lights, improved sight lines, a signalised pedestrian crossing, better lighting and new kerbing.

The project, which was completed in January, was delivered by Logan City Council with support from the Australian Government's Black Spot Program.

I would like to thank all the residents who reached out to me asking for this upgrade to be done.

It is fantastic to see it completed as it will make travelling around our area easier and safer.

I will continue to work hard for further road and intersection upgrades in Division 8 as our area grows at an unprecedented rate and volumes of traffic soar.

## You're invited to our Community meeting

Community meetings are a great chance to have your say.

I will be there to give an update on local projects and to hear your thoughts.

Our community meetings are held at the Logan Metro & Sports Centre (357 Browns Plains Rd, Crestmead).

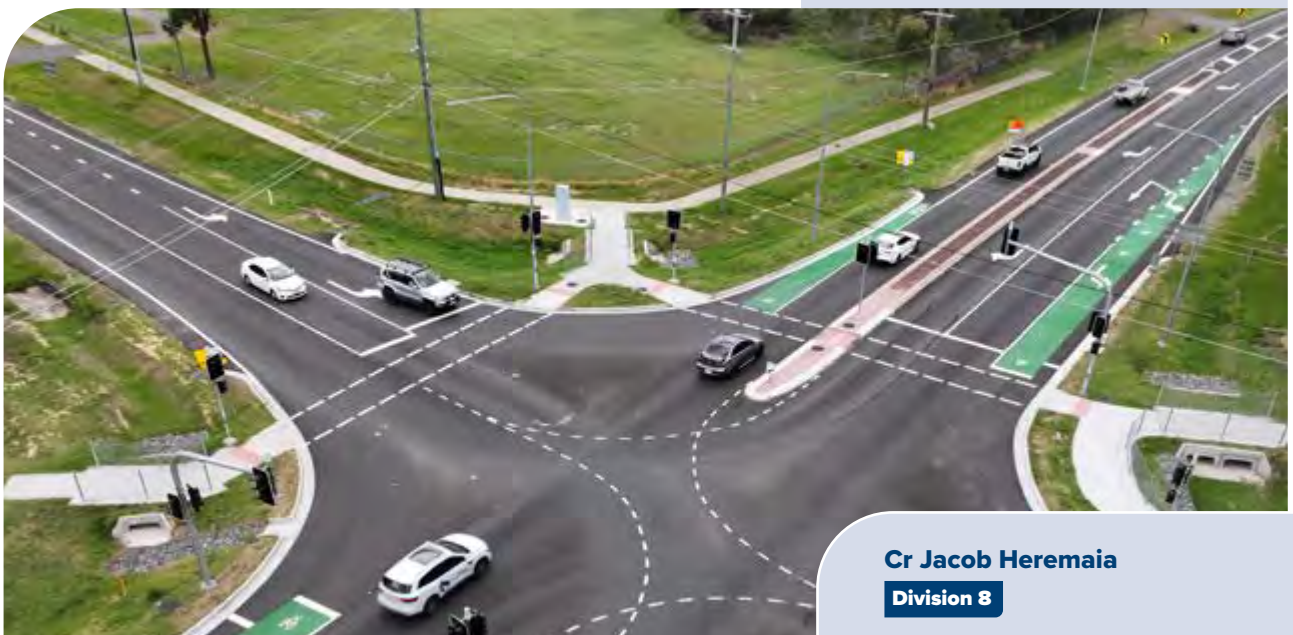

Parking is free and complimentary light refreshments are available.

The next Division 8 community meetings will be held on:

### 📅 DATES:

**Wednesday, 13 August, 6 pm – 7 pm**

**Wednesday, 12 November, 6 pm – 7 pm**

The upgraded intersection of Park Ridge, Clarke and Lindenthal Roads.

### Local contacts:

Logan City Council and Logan Water (24 hrs): **3412 3412**

Animal Ambulance: **1300 264 625**

The new footpath along Park Ridge Road which now provides a safer walk to Corymbia State School.

## Footpath ensures a safe walk to new school

Safety is always our top priority for Division 8 residents.

That's why I am pleased to confirm that a new concrete footpath connection has been completed along Mount Archer Road linking with Park Ridge Road.

This has created a safe and secure route for students to walk from

nearby estates to the new Corymbia State School.

A big thank you goes to the local parents and concerned residents who raised this issue with me.

I immediately spoke with Council and I am delighted that they understood the seriousness of the issue.

The new footpath was constructed soon after and dozens of children are using it each school day.

I urge other residents to reach out to me through my email if you have any suggestions for important upgrades in your area.

A safety fence is part of the new footpath along Green Road in Heritage Park.

## Better connection along Green Road

A new concrete footpath on Green Road now connects Waller Road to Isle of Ely Drive at Heritage Park.

Division 8 residents have been missing a vital piece of infrastructure on this busy thoroughfare.

The new delivered footpath connection ensures a safer and more accessible route for pedestrians.

As part of this project, a safety fence has been installed where the footpath goes over a culvert and drain.

The project was funded from the Division 8 Local Infrastructure Program.

As our part of the city continues to grow rapidly, I am committed to working closely with Council to deliver similar infrastructure projects and upgrades to benefit our community.

# Mobile cameras deployed in industrial estate

A mobile safety camera has been deployed at the intersection of Green Road and Mercantile Drive in Park Ridge.

Council has more than 1,400 fixed, mobile and covert cameras in its citywide CCTV safety camera network.

The purpose of the Logan safety camera program is to:

- increase community safety throughout Logan
- detect and reduce anti-social and unlawful behaviour
- support the Queensland Police Service to identify and effectively prosecute offenders.

The feeds from each safety camera are monitored 24 hours a

day, 7 days a week by Council staff and police.

This location was chosen for a mobile safety camera after reports of hooning and other unlawful behaviour in this mostly industrial area that is quiet at nights and on weekends.

The mobile safety camera is solar powered and will be moved to a new location every few months.

This ensures that cameras are positioned where they are most needed and helps support the safety of our community.

To learn more about the safety camera network and the location of cameras in Division 8, go to: [logan.qld.gov.au/safety/safety-camera-locations](https://logan.qld.gov.au/safety/safety-camera-locations)

The new mobile safety camera which will be deployed at locations across Division 8.

## Mayor's message

I hope you had a safe and happy Easter.

Can you believe it's been just over a year since your Councillors and I were elected?

It's been an incredibly busy time and the recent public holidays were a good chance to reflect on what's been achieved.

Some great news for Logan is that our new 9-court Indoor Sports Centre will start construction later this year and is due to be finished by 2028. This is a \$140m project funded jointly by the Queensland and Australian Governments and has been identified as a potential event venue at the 2032 Olympic and Paralympic Games.

We also recently completed an \$80 million upgrade of Loganlea Road.

This project, which included widening the road to 3 lanes in both directions and adding infrastructure, was funded with the support of Jim Chalmers MP as part of the 2022 Federal Election.

Council is now in the middle of finalising the upcoming budget. Your Councillors are focused on finding savings and improving efficiencies across all areas. But just like you, Council is struggling with significant increases in costs for the city – particularly fuel, electricity, insurances and construction.

We're also working on a community consultation project called Transform Logan. During my election campaign, locals said they wanted their Mayor to focus on better long-term planning and an ambitious vision for our city.

This community reference panel has 50 representatives looking at what the next 50 years looks like for Logan. They will share their ideas later in the year.

I'll share some more information on my social media soon about how you can have your say on the city's future as well.
