## Leading the push for progress on Rochedale Road

Division 1 residents can be assured that I am continuing my hands-on advocacy for the long-awaited upgrade of Rochedale Road, working to bring all levels of government together to secure the required funding.

With the conceptual cost of widening the corridor between Priestdale Road and Underwood Road now expected to exceed \$105 million, it's evident that meaningful progress will require a coordinated, multi-tiered investment.

A key funding mechanism often

discussed is the Queensland Government's Transport Infrastructure Development Scheme (TIDS), which supports councils across the state through Regional Roads Groups.

Logan City Council is part of the Southern Regional Roads Group alongside the City of Gold Coast and Redland City Council.

Logan typically receives around a third of the group's annual TIDS allocation – slightly under \$1 million – matched dollar for dollar by Council.

However, TIDS alone represents less than 1 per cent of the projected Rochedale Road upgrade cost.

This is why I have been proactively meeting with stakeholders, advocating across government tiers and pushing for a shared funding commitment.

By initiating discussions early and highlighting the significance of the corridor, my aim is to lay the groundwork for the substantial state and federal investment required for a joint Brisbane City Council and Logan City Council project.

Councillor Lisa Bradley is advocating for the upgrade of Rochedale Road (above).

## Mayor's message

Did you hear the big news? Amazon Australia is coming to Logan.

A new \$750 million robotics fulfilment

centre will be built at North Maclean, creating more than 2,000 jobs during construction and fit-out, and around 1,000 ongoing jobs for people in our community once it's up and running.

Plans have been revealed for the four-level facility, which is set to cover about 150,000 square metres. That's almost twice the size of Suncorp Stadium.

When it's operating at full capacity, the centre will process more than 125 million packages a year and hold up to 15 million items ready to ship. With advanced AI and automation, that means faster delivery for customers right across Queensland.

The City of Logan is the perfect place for a company like Amazon to invest. We're the youngest and fastest growing city in Queensland, and many in our community want the opportunity to work closer to home.

Local jobs mean less traffic on our roads and more time with family.

I also love how Amazon's robotic warehouses combine technology and people. The technology handles the heavy lifting and repetitive tasks, while people focus on the work that requires skill, judgement and experience.

Your Councillors and I believe it's important that high-paying technology jobs are created right here in Logan. It's something many of you told me you wanted when I was running for Mayor.

Amazon joins big names like Toyota, Culture Kings, LSKD and Little Red Dumpling which have already invested in Logan's bright future. They know what we know. Logan is the place to be.

The Amazon fulfilment centre is expected to be completed in 2028.

**Mayor Jon Raven**

## Springwood Road and Donna Avenue intersection upgrade

After extensive planning and community advocacy, Logan City Council has released the detailed design for the long awaited upgrade of the Springwood Road and Donna Avenue intersection.

The design includes the introduction of new dedicated turning lanes to improve traffic flow during peak periods, along with full road resurfacing for safer driving conditions.

Pedestrian and cyclist connections will also be improved to create safer and more accessible pathways for those travelling through the area.

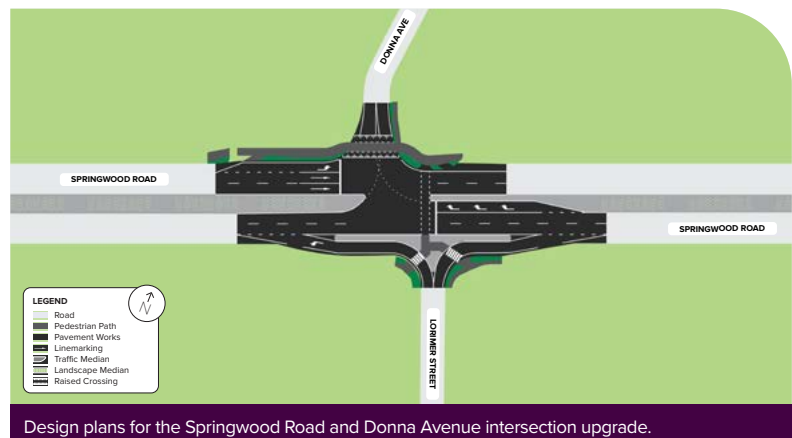

In addition, new CCTV cameras will be installed to support ongoing safety and traffic monitoring.

Construction is scheduled to begin mid year with works carefully planned to minimise disruption where possible.

As the project progresses, I will continue to provide updates so residents and commuters remain informed about timelines, traffic changes and key milestones.

For those interested in exploring the full plans, concept designs, and project details, simply search 'Springwood Road and Donna Avenue' on Council's website.

This upgrade has been a long time coming, and it's exciting to see it moving into the delivery phase. Thank you to the community for your patience and ongoing engagement.

Design plans for the Springwood Road and Donna Avenue intersection upgrade.

## Change of scenery for mobile offices

My mobile offices are back for 2026.

For a change of scenery, I will host more meetings in Division 1 parks so residents can raise local issues and seek assistance closer to home and school.

Scheduled dates are:

### **Springwood Park, Springwood**

Friday, 24 April from 9 am – 11 am

### **Underwood Park, Priestdale**

(under the shelter next to the dog off-leash area)

Monday, 15 June from 2 pm – 4 pm

Community members can drop in, share feedback and stay informed about what's happening across the area.

Mobile offices are subject to weather and urgent Council meetings so please confirm with the Divisional office prior to attending.

# Major facility upgrades funded for local clubs

Two much-loved community sporting clubs are set to complete significant upgrades thanks to Division 1's Local Infrastructure Program.

Rochedale Cricket Club and RATS Cycling Club have each been awarded \$100,000 to revitalise their home facilities to ensure they remain vibrant hubs for local sport.

RATS Cycling has used the funding to

enhance its storage facility and bike hub shelter in Underwood Park.

Improvements to the headquarters include new club signage, bike racks and shelving and a dedicated and much-needed bike wash.

There's also lockable power, secure storage spaces, extended roofing and upgraded security features.

These additions will support the club's

growing membership and improve safety and convenience for riders.

Rochedale Cricket Club will also benefit from a fresh new look with funds allocated to rendering and painting its Underwood Park facility.

The grant will also support the replacement of large trees, improving the amenity and long-term sustainability of the grounds.

Facilities at RATS Cycling Club in Underwood Park have been improved through Division 1 Local Infrastructure Program funding.

# Finishing touches for Girl Guides renovations

Vibrant new murals now brighten the Girl Guides' building at Underwood Park, marking an exciting finale to the club's creative journey.

Guides played a hands-on role in choosing the designs that ensured the artwork reflects their spirit of adventure, love

of nature and passion for a range of guiding activities.

This colourful transformation is the final project delivered through the \$100,000 Division 1 Local Infrastructure Program funding package – an investment that has helped elevate the club's facilities and community pride.

# Immunising your child

Immunisation is a **safe** and **effective** way of protecting against harmful diseases.

The Logan City Council school immunisation program provides **free immunisations** to **year 7** and **year 10** students.

Scan to find more information about the school immunisation program.
